Apponequet
Regional High
School

When the Class of 1992 entered Apponequet Regional High School, those students brought with them all their uniqueness and their individuality, their separate talents and abilities. Their experiences here, set forth in the 1992 Polarion, serve as their common point, that brief intersection of so many individual lives. From this point the members of the Class of 1992 will branch out, once again as separate individuals, but forever affected by that which has taken place here.

I walked along, I walked alone
Down a path I'd never traveled,
Searching for the clearing,
A Destination,
One with all the answers.

As I walked, people passed
Down this path I'd never traveled,
Few stopping to talk,
Some smiling,
Others drifting on their own.

Then strangers came, lead the way
Down this path I'd never traveled,
Reaching the open field,
We stayed,
And shared our time and company.

The day arrived, we parted ways
Down this path I'd never traveled,
Knowing not the answers,
But each other,
And ourselves a little better.

So on I walked, never feeling alone
Down the path I'd never traveled,
With not the stars, but memories
To guide me
Onto my next destination.

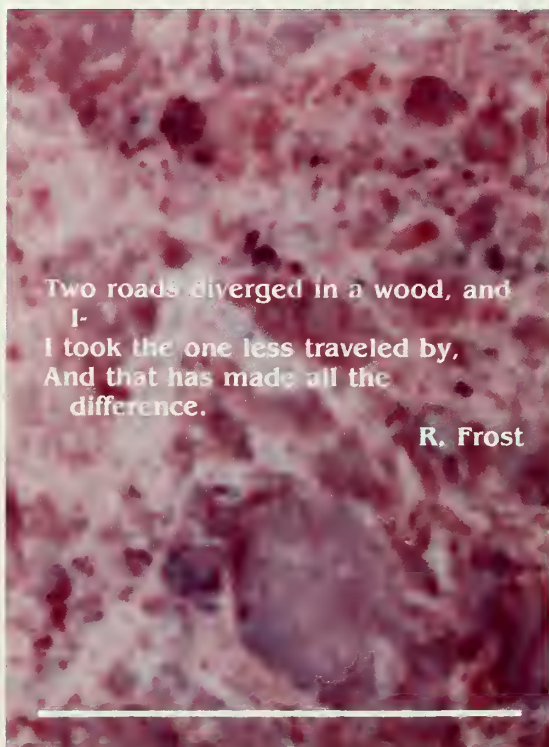

**Even Though Its Only For A Brief Moment
 That We Find Ourselves Here,
 We Have Still The Satisfaction
 Of What We Have Accomplished.
 As We Remember The Journey
 That Brought Each Of Us Together,
 We Realize We All Have Triumphed;
 And While Envisioning The
 Travels That Lie Ahead,
 We Know There Is So Much More To Gain
 So This Period In Time
 Is Nothing Compared To What We've Seen,
 And What Remains
 Lies Only In Another Brief Moment**

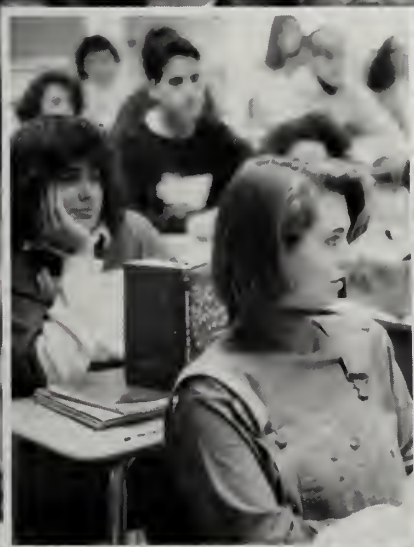

Two roads diverged in a wood, and
I-
I took the one less traveled by,
And that has made all the
difference.

KEN BRADFORD

When he came to this school, he thought of it more as a type of playground, rather than the learning center it should have been. Looking around, he saw people from all walks of life. He would like to thank all the people who made his school years so much better than a barrel of school books, cause that's the way he was. And thank you too, Wendy.

Until now,
 I had never known of you.
 And perhaps,
 After this short time has passed,
 I will never know you again,
 But while we're here,
 All together,
 Let's fill every moment
 Creating memories that will linger
 Over the many years to come.
 Then, when the day does arrive
 That we must go our separate ways,
 I will look back and realize-
 That even though we knew not of each other
 You truly did know me
 Long before we met.
 And through these memories, these moments,
 I will forever know you,
 Long after this time has escaped us,
 Long after we have parted.

Mr. Jean Bonneau

Before the start of the past academic year, Mr. Jean Bonneau, Industrial Arts teacher here at the high school for many years, passed away suddenly.

The entire Apponequet community mourns his loss and we wish to express to his family and friends our sorrow at his untimely death.

Mr. Bonneau will be remembered most dearly, however, by his Industrial Arts students, those young people who must credit their own technical ability with the expertise of their teacher and friend.

Mr. Joseph C. Simas
Principal

Mr. Dean A. Powers
Assistant Principal

Mr. Joseph C. Simas, former teacher and Assistant Principal, will be retiring as Principal of Apponequet Regional High School in June, 1992.

Mr. Dean A. Powers, former teacher of Apponequet, will be leaving his position of Assistant-Principal, also in June, 1992.

It is not possible for anyone involved in the education of the young people of the Freetown-Lakeville Regional School System to be unfamiliar with these two men. Together they have dedicated 61 years to this school district, specifically to the students of Apponequet High School and to its faculty and supportive staff.

Joe Simas has filled so many roles that one could not possibly hope to include them all. As Principal, he has struggled, first and foremost, to maintain a high quality educational program for our students even in the face of massive budget cuts and diminishing staff. He has fought, publicly, for the recognition of education as our community's first priority and has continued even in the face of repeated disappointment.

He has served throughout his tenure as the liaison between his building and the Central Office through the administration of six superintendents. He has supervised an enormous building and expansion project and he has headed countless committees and organizations. Through it all he has done it with his own particular style, never upstaging anyone, but never sitting quietly when the quality of education at his high school was at risk.

The position of Assistant Principal is not always a pleasurable one. Certainly being the resident disciplinarian for the student body and the initial sounding board for faculty concerns or complaints can make for a long, tension-filled day.

Dean Powers has spent many of those days here at Apponequet yet he has been systematic and organized in all aspects of his performance and responsible in the carrying out of his duties.

He has been a constant advocate for the rights of students and of faculty members in the face of any violation of those rights and he has scrupulously defended the dignity of the individual.

He has watched as educational supplies dwindle to unrealistic proportions and has had to witness teachers begging for a ration of those supplies.

He has devised countless duty schedules, innumerable changes of rooms and classes and contacted hundreds of substitute teachers.

In the course of his tenure at Apponequet he has been the resident "bad-guy," dispensing everything from detentions to admonitions, and he has always done it consistently and responsibly.

We can only imagine how this educational institution will change with the departure of these two individuals.

Situations will be altered, some policies transformed, some traditions abolished. In the business of education there can be no standing still; change is vital to success.

What will be remembered, however, is the example of dedication set forth by these two individuals.

Mr. Simas and Mr. Powers receive State House commendations for their years of service at Apponequet.

Mr. Leo Charbonneau
Vocational Instructor

Mr. Leo Charbonneau, Vocational Instructor at Apponequet for many years, retired from his position in June, 1991.

Mr. Richard Noll, Music teacher at both Apponequet and the George R. Austin Middle School and Band Director at the high school, will be retiring as well, in June, 1992.

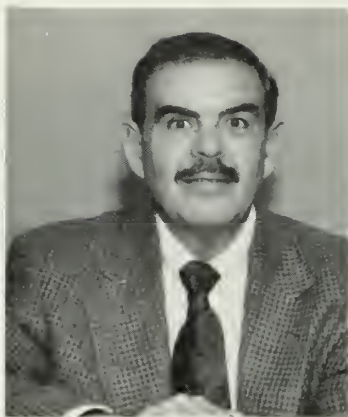

Although we have been without the quick wit and humor of Leo Charbonneau for a year now, the stories are still told and the smiles remain.

The tones of Dick Noll's musicians will have faded by September but the enthusiasm for music that he has created in his students will go on forever.

The Apponequet community wishes to take this opportunity to wish these men, dedicated and talented educators both, the best of luck and much happiness in their future endeavors.

AMNESTY

Amnesty International is a world-wide movement which seeks to protect human rights independent of any government. Members work basically for the release of prisoners of conscience, for fair and prompt trials, and for the abolition of torture and inhuman treatment including the death penalty. Amnesty International acts on the basis of the United Nations Declaration of Human Rights and has more than 70,000 members in over 150 countries. During the 1991-1992 school year approximately thirty Apponequet members have met to write letters to work for the rights of individuals who are detained because of their beliefs, color, and religion in countries other than the United States.

We ventured in unknowing,
Made our mark,
And now we move on once again.

Still, we must understand
There is a piece of each of us here,
Between these pages,
Among these walls,
Holding forever this point in time.

And no matter where we've been
Or we go now
We will always know;
We have been our best,
We have had our time,
And now it's our turn to go out and claim the world.
